

Drive Example

Completing a service project is a great way to Love the Ville', but sometimes it's hard to volunteer on-site with a nonprofit. These step-by-step serve at home guides allow you to participate in a service project on your terms. They're great for you, your family, or your small group. If you complete a project at home, register your participation (through the story portal) so we can measure our collective impact in our community.
